P-4 MOTOR TORPEDO BOATS (PT),
NORTH KOREA

1. The first identification of P-4 PT boats in North Korea was made on photography of [redacted] (Figure 1). A total of seven of these Soviet-designed boats were observed at three different locations. Two were at Nampo, three were at Kwangyang-ni (on ways), and two were at Sagon-ni (on ways).

2. Recently, a decrease in the number of P-4 PT has been noted at Ling-shan-wei Motor Torpedo Boat Base [redacted] in China which may indicate that the boats in North Korea were transferred from that installation.

3. The appearance of P-4 PT and Chinese-type artillery tractors at Kwangyang-ni tends to support recent speculation that a military aid agreement may have been effected between Communist China and North Korea in addition to a new economic aid agreement.
